

BCH Services Guide - Sexual Health Clinic

The Sexual Health Clinic is located at Ballarat Community Health's Lucas site.

Our team of qualified health professionals pride themselves in a non judgmental, welcoming clinic providing services to people of all genders and ages.

We do not discriminate; Gay Lesbian Bisexual and Transgender (GLBT) and same sex attracted clients are welcome.

Consultation Services

Some of the consultation services include;

Information and support on sexual and reproductive health

Sexually Transmitted Infection Screens (STI) –testing, counselling and treatments, you may not know you have an STI – most people have no symptoms.

Contraception Services - something you do or take to prevent pregnancy. These include;

Mirena insertion and removal

Implanon insertion and removal

Copper IUD insertion and removal

The Combined Pill

The Minipill

Depo Provera injections

NuvaRing

Unexpected Pregnancy Counselling

If you think you may be pregnant, we can provide pregnancy testing, options counselling and advice, as well as referrals.

Making an appointment

An appointment can be made by phoning (03) 5338 4541 or call in to make one at 12 Lilburne Street, Lucas.

Cost

Services may attract a minimal fee. Please request an estimate when booking your appointment and bring along your current Medicare card

No client will be denied access to services as a result of their inability to pay a fee.

More Information

Health Professionals provide information on an individual basis at appointments. Nurses also provide health promotion and education at schools and other groups.
