the tight arse cook book

This cookbook was created as a resource for people to get confident with cooking on a budget - rather than opting for take away and supermarket fast food options.

Cooking boosts both confidence and self-esteem, cooking for others creates connectedness and a sense of worth.

Cooking for yourself not only helps you eat more healthily, but it also sends you a message that you are important.

Each meal will feed at least two people, enabling meal portions to be shared, frozen, or used as leftovers for the next meal.

The instructions are simple.

Living skills programs are encouraged to utilise this cookbook.

RECIPES

key tools

tongs

strainer

potato masher

spatula

casserole dish

roasting dish/pan

baking tray

mixing bowls

wooden spoon

peeler

saucepan

slotted spoon

chopping board

grater

knife

measuring cups

measuring spoons

muffin trays

microwave safe container

*Glass, ceramic, china and some plastics bowls are microwave safe. Check the bottom of bowl or heat in a mug if you are unsure.

frozen/fresh vegetables

TOOLS:

Saucepan
Knife
Chopping board
Frying pan
Microwave safe container

- Any vegetables you have (e.g. fresh or frozen vegetables)

.....

Cooking options:

- **Boiled** – boil water in saucepan, then add vegetables, once vegetables cook for a few minutes, test with a fork to see if they are cooked and ready.
- **Microwave** – place vegetables in a microwave safe container with a lid, add a dash of water (1 tablespoon), microwave veggies for 2 minutes, once 2 minutes is up, give a stir then microwave for another 2 minutes, then take out of microwave and stab with a fork to see if they are cooked and ready.
- **Stir-fried** – put a dash of oil in a fry pan, place fry pan on medium heat on oven and heat and add vegetables. Cook vegetables for a few minutes then test by stabbing with a fork to see if they are cooked and ready.

* You may like your veggies a little crunchy or a bit soft, it's up to you

*Always put frozen veggies back in the freezer to avoid waste

roast vegetables

TOOLS:

Baking dish
Knife & chopping board

- Any vegetables you have (e.g. potato, sweet potato, carrot, pumpkin, parsnip, corn, zucchini, mushroom)
- Onion
- Oil

-
1. Heat oven to 180° degrees.
 2. Cut onion & other vegetables into pieces.
 3. Pour about 2 teaspoons of oil into baking dish.
 4. Add onion & hard vegetables (like carrots & potatoes) in baking dish.
 5. Sprinkle salt & pepper - stir around until all covered.
 6. Cook in oven for 30 minutes .
 7. Add other vegetables (like zucchini or mushrooms) & stir.
 8. Cook for another 20 minutes.

* ½ teaspoon of minced garlic stirred in before cooking is nice

mashed potatoes

TOOLS:

Large saucepan
Potato masher
Measuring cup

- 4 medium or large potatoes
- ¼ cup of milk
- Teaspoon of margarine

-
1. Fill kettle with water & boil.
 2. Peel potatoes & chop into quarters.
 3. Fill saucepan with boiled water, heat on stove until boiled again.
 4. Add potatoes to boiling water, cook until soft (about 10– 20 minutes), test by stabbing with a fork.
 5. Drain the water out of the potatoes.
 6. Add margarine & milk & mash potatoes until not lumpy.

*You can add cheese if you like

roast potatoes

TOOLS:

Large saucepan
1 baking tray
Strainer
Sharp knife

- 4 medium potatoes
- 1 table spoon oil
- Pinch of salt & pepper

-
1. Preheat oven to 180° degrees.
 2. Bring the large saucepan of water to boil.
 3. Cut potatoes into quarters.
 4. Put potatoes in boiling water cook for 5-10 minutes, until potatoes are beginning to get soft - test them by pricking them with a knife.
 5. Meanwhile, add oil to tray & place into hot oven to heat up.
 6. When potatoes are a bit soft, strain them to get rid of all the water.
 7. Get oven tray out of oven & add potatoes (be careful as the tray and oil are hot) sprinkle a little salt & pepper.
 8. Roast in oven for 50 minutes, turn potatoes half way through to ensure they look golden on all sides.

baked potato

TOOLS:

Baking tray

- Large washed potato
- Butter or margarine
- Toppings of choice

-
1. Preheat oven to 180° degrees.
 2. Put one large potato for each person on baking tray.
 3. Cook potatoes in oven for about 1 hour or until soft.
 4. Cut open & put a bit of margarine or butter on each potato.
 5. Add any ingredients you like - tasty toppings to add might be:

- | | | |
|-------------------|--------------|------------------|
| • cheese | • mushrooms | • onions |
| • baked beans | • ham | • herbs |
| • salsa | • bacon bits | • jalapeños |
| • chili con carne | • tuna | Anything really! |
| • coleslaw | • corn | |
| • sour cream | • chives | |

* You can also ½ cook the potato in microwave for 10 minutes, then place in oven for 5-10 minutes to crisp up skin.

rice

TOOLS:

Saucepan
Strainer

- 2 cups of rice
- Water

-
1. Half fill saucepan with hot water.
 2. Heat on stove until boiling (bubbling).
 3. Add rice to boiling water and cook until soft (about 15 minutes), stir occasionally - test by tasting to see if rice is soft.
 4. Drain the water out of the rice by pouring into a strainer over the sink.

cooking pasta

TOOLS:

Large saucepan
Strainer

- Water
- Packet of dry pasta or spaghetti

-
1. Half fill saucepan with hot water, heat on stove until boiling (bubbling).
 2. Add amount of pasta you want to cook (half a packet will feed two people & maybe some left over).
 3. Cook until soft (about 15 minutes).
 4. Drain pasta by pouring into strainer over the sink.

gnocchi

TOOLS:

Big mixing bowl
 Large saucepan
 Slotted spoon
 Clean & dry bench/table

- 500 grams of ricotta
 - 1 cup of plain flour
 - Extra flour for sprinkling on bench
- * if you have a 375gram tub of ricotta add only 3/4 of a cup of flour

-
1. Add ricotta and cup of flour to bowl, mix with a fork, it will clump together like a dough.
 2. Sprinkle flour onto a clean bench, empty dough onto bench and knead/roll into a smooth ball.
 3. Roll dough into a few sausages and cut into 2cm pieces.
 4. Sprinkle flour onto pieces if they get sticky - place bits onto plate.
 5. Half fill large saucepan with hot water, heat on stove until boiling (bubbling).
 6. Gently place gnocchi into saucepan of boiling water.
 7. When gnocchi rises to top of water (around 2-5 minutes) scoop it out with slotted spoon into your serving bowls.

*Great with Bolognese sauce!
 (see next page)

use-by dates & best-before dates

Packaged foods are labelled with a date.

Best before- best before dates tell us how long the food will stay as it is, it is a suggestion of when you should use it by. Most foods will stay be okay to eat after their 'best before date' but may not be as fresh/taste as nice.

'Use by date' tells us when we should use this food by because it will go off and may make you sick if it is no longer fresh for example meat and dairy products.

If you freeze food it will last much longer than it's used by date, make sure you keep it frozen until you want to use it.

Canned foods

Canned foods, are foods packaged in tinplate/aluminium containers but may also come in glass jars or plastic tubs.

Canned food has a best before date label if it is stored for longer than this it is still safe to eat, however after time it may change in colour, texture etc.

Once you have opened a can put any leftovers in a container with a lid and treat them as though they are fresh food, make sure they are refrigerated.

freezing & frozen food

- A good rule is to handle all frozen foods as you would ice cream. Frozen food should be bought last, taken home immediately and then placed straight into freezer.
- Frozen food is safe to eat for years if properly frozen.
- Wash up take away containers to freeze left over meals in.
- You can freeze a loaf of bread so it lasts - just get out what you need.
- If you buy a lot of meat, you might want to divide it up into meal size portions and freeze in bags (make sure your hands are extra clean).
- If only a portion of a package is to be used at one meal, the unwanted portion should be rewrapped and returned to the freezer immediately after the desired quantity has been removed.
- You need at least 8 hours in the refrigerator to thaw frozen food like sausages.
- Thawed food should not be re-frozen unless it has been cooked and you are refreezing a meal.
- Some frozen foods, particularly vegetables, should be used direct from the frozen state.

Storing food

- Make sure you put refrigerated food straight in the fridge.
- If food is left out of the fridge for a while it will not keep very long and you will need to check that it looks and smells ok before eating.
- Store food (that doesn't need to be refrigerated) in cool dark cupboards, away from heat sources such as heaters, ovens or the sun.
- Store food in air proof containers where possible, so it stays fresh (wrapping in a plastic bag helps)
- Use up older packets and cans before more recently purchased ones.
- Make sure once you have opened something to put it in the fridge if it says to on the label.
- If you have opened a tin of food and are not using it all, put the rest in a container and place in fridge to use in next day or so.

handy hints for shopping

- Make a shopping list before you shop.
- Don't shop when you're hungry.
- Home Brand Coles and Woolworths, No Name, Black and Gold label are just as good as other brands (in most cases).
- Aldi supermarkets are a good way to save off your overall shopping bill.
- Make sure you check used by dates and get the one with the longest shelf life.
- No name toilet paper twin pack has the same amount of sheets as 10 rolls of most other brands.
- 2 small size black swan dips are the same quantity and cheaper than one large tub and will keep longer as you only have to open one at a time.
- Aldi disposable nappies are as good as Huggies nappies and are less than half the price.
- The medium sized vegemite is about 20¢ cheaper than the small one!
- Frozen veggies are as nutritious as fresh veggies and don't go off if you store them correctly in the freezer.
- Have a look what is on sale and be a little flexible if it will save you money.
- If something is on sale buy a few (if possible) and keep in cupboard for example baked beans or tinned tomatoes.
- Maybe see if buying a bigger packet or tin is cheaper, make sure you will use it all or that it keeps for a while.
- Try not to buy anything from service stations, 7/11 stores or milk bars, they are always expensive.
- Check what sort of light globes you need.
