About Ballarat Community Health Ballarat Community Health (BCH) strives for high quality, flexible and responsive service delivery and health promotion with a focus on service monitoring, review and evaluation. BCH provides a broad range of services to the community of Ballarat, with outreach services delivered in the Central Highlands region and beyond. There is a primary emphasis in all service delivery on health promotion and illness prevention. BCH is committed to operating as a values-based organisation and has adopted the below values as key to our work. We seek to demonstrate these values in the way we choose to behave and interact with each other, our clients, partners and the community. Compassion, empathy and empowerment are important behaviours in underpinning these values.

Our Purpose Health and wellbeing for all with a commitment to the most vulnerable.

Our Leading Principles A driven desire to maximise impact and be sustainable.

Values	Respect Valuing other points of view and treating people with respect	Integrity Acting with sincerity and honesty	Courage Strength in the face of challenges
	Resilience The ability to be strong in adversity, and bounce back with renewed hope	Responsibility Being reliable and accountable to others	Optimism Focusing on potential and abilities

Diversity Statement Ballarat Community Health recognises and celebrates the diversity of the community within which we work. We acknowledge the first peoples of Australia and their unique contribution. We welcome and work with people of all ages and health status, of all races, abilities, gender identities, sexual orientations, religious, cultural and linguistic backgrounds and financial status.

Position Summary Ballarat Community Health continues to build our Mental Health and Alcohol and Other Drug integrated teams and programs in Ballarat and the surrounding community. It is an exciting time to become involved in the Community Health Sector. We encourage collaboration across

the broad range of programs available to our local community. With the recommendations from the Royal Commission into Mental Health in Victoria, along with a commitment from our Commonwealth Government, via the Western Victoria Primary Health Network, multiple changes and improvements continue for our region.

Step Thru Care is an initiative of the Commonwealth Government, coordinated and funded via the WestVicPHN. The Program will work across the Central Goldfields area, in collaboration with Central Highlands Health Service, Maryborough and District Health Service and Ballarat Community Health.

The aim of the program is to address the needs of the consumer in a timely and straight forward manner, regardless of whether the primary area of concern is mental ill health or substance use. The program will provide services as and when needed, while incorporating warm referrals and collaborative care with other service providers. While Ballarat Community Health will be the lead agency, we will work closely with our partners to ensure clients are linked with the most suitable provider in their local area. The outcomes will include but not be limited to improved mental health and decreased harm from alcohol or other drugs.

The Integrated AOD & MH Clinician will be a member of a dynamic multi-disciplinary, multi-agency team. As the Clinician, you will be responsible for a range of clinical services, including but not limited to, intake, assessments, therapeutic intervention, treatment coordination, care planning, case management, group work, and discharge planning.

Team Environment

Ballarat Community Health Mental Health and Alcohol and other Drug services offers a robust, multi-disciplinary team environment, with positive client outcomes always our priority. We nurture an innovative, learning environment which fosters optimal wellbeing for clients and our team members.

Principal Areas of Responsibility

Improve overall health and wellbeing of clients

- Excellent communication skills, ensuring friendly, welcoming, non-judgemental approach
- Flexible approach required, with the ability to problem solve, prioritising consumers needs
- Undertake a thorough assessment, including but not limited to identifying the clients immediate needs.
- Deliver evidence-based treatment interventions as part of the treatment plan
- Provide care coordination, including liaison with and warm referral to other services relevant to the treatment goals, including social supports, community involvement and physical health needs
- Facilitate evidence based group programs
- Encourage and facilitate client, carer, family and peer worker involvement
- Foster a collaborative, success-focussed culture with colleagues as part of a multi-disciplinary team which operates across several organisations
- Work closely and collaboratively with the existing AOD and MH teams and services
- Provide clinical expertise to a broad multi-disciplinary team from your area of qualifications and skill set
- Provide secondary support to other members of the team, including the development of documents as required
